

**SMBA**  
**MIDGET BASKETBALL GAME PLAY RULES**  
*(Revised September 2009)*

**FIBA rules are used with the following exceptions/amendments**

**1. NO DUNKING IN WARMUPS.**

**2. BALL**

Midget Girls shall play with a No. 6 leather ball; Midget Boys shall play with a No. 7 leather ball. Balls shall be provided for game play by the home team.

**3. PLAYING TIME**

Games shall be 4 quarters of 10 minutes straight time. *The last 2 minutes of the fourth quarter is stop time.* The clock stops for all free throws and time-outs. During the last 2 minutes of the game the clock shall stop for made field goals. In league play, there is no overtime. In playoffs there shall be a 2-minute rest followed by 5 minute periods. The first team to 7 points will be declared the winner.

Teams will not be allowed to stall to waste unnecessary time: the referee could ask for a 30 second count to be made.

**4. SUBSTITUTION**

We believe that each player should play at least 10 minutes per game, and must play in each half. If a player is injured, ill, late, has 4 fouls, or is being disciplined, this player requirement may be waived.

**5. THROW-IN**

On all throw-ins, the defensive player must be 1 meter from the line (hands and feet). The referee will not handle the ball in the backcourt.

**7. FREE THROWS**

After 4 fouls per quarter against one team, bonus shall be shot on any further fouls by the opposing team.

**8. PRESSES**

A press is defined as full-court man-to-man defense with no double-teaming in the back court. A press is allowed any time of the year for the losing team at any score; b) for the winning team if they lead by 20 points or less.

**9. NO ZONES**

Man-to-man defense must be played. The maximum number of players that can play on the ball is two. Only one player may guard a player without the ball. Help side defense is allowed, assuming that only one player gives help. Officials will be asked to use the following guidelines to determine whether man-to-man rather than zone defense is being played:

- a) When players cut on offense, there should be some motion to identify man-to-man defense.
- b) Players must play relatively close to their man that has the ball.
- c) Players must play on the side of the floor nearest their check (use an imaginary line from the center of the basket). The defensive player can only straddle this line before going to help a teammate that has been beaten or to join a teammate in a double team.
- d) A knowledgeable, unbiased representative appointed by the executive will monitor zone defense in playoff games

**Note:**

**Shirts may be worn underneath the uniform top.**
